CASTELNAU WINE AGENCIES

Welcome

2024 marks 44 years of our service to the UK wine trade and we remain as dedicated as ever to our founding mission: to work as closely as possible with our suppliers to offer a broad scope of excellent wines which are relevant to the needs of all our varied customers.

As the UK arm of Terroirs et Vignerons de Champagne (TEVC), our team has expanded across the UK, and significant marketing investment in our flagship Castelnau Champagne, including a successful re-brand, has put the brand in strong growth, whilst retaining our commitment to being exclusively a Champagne for the On-Trade and specialist retail. We are delighted that Castelnau's champagnes, and indeed our winemaker Carine Bailleul, have won an abundance of awards at the highest level last year and we will build on these successes in 2024.

In addition to our Champagne portfolio, it is a privilege to sell exceptional wines from our suppliers all over the world, without whom we would not be here. Our suppliers are sustainably and socially responsible, and their ambitions align with our own; their work and wines follow best practice guidelines and consideration for the end consumer.

We hope you enjoy our new Wine List (DPD pricing is applicable from 1st January 2024).

Please ask our sales or marketing team for any information about our portfolio.

You can reach us on sales@castelnau.co.uk, or by calling **020 7751 2490**.

Champagne Castelnau - Reims

Champagne Castelnau is located in the heart of Reims, and represents the very essence of the region. With 809 hectares of vineyards across 150 crus, a unique grape growers' collective guarantees exceptional supply and consistently outstanding Champagne.

The House's flagship champagne, Brut NV, (formally named 'Brut Réserve'), showcases the prolonged ageing that defines the signature Castelnau style. This deliberate choice was introduced many years ago, in the pursuit of complex, feather-light champagne that would stand apart from the rest. Aged for a minimum 5 years in the cellars, this champagne is the legacy of decades of skill and passion. It celebrates the rich diversity of terroirs, from which Chardonnay, the majority grape in the blend, is sourced, to impart its full freshness, depth and length.

Our Cellar Master, Carine Bailleul crafts our exceptional wines and her talents have been widely acknowledged. In 2021, Carine was shortlisted for the IWC 'Sparkling Winemaker of the Year' award, and Carine has been named a 'Top 100 Master Winemaker 2024' by The Drinks Business. Champagne Castelnau has for the last 3 years been recognised within Drinks International's annual list of the 'World's Most Admired Champagne Brands'.

Champagne Castelnau's stunning new packaging design, with beautiful premium textured labels, provides a strong brand identity with unique features and highest quality Champagne cues. Luxurious, glamorous, classic and traditional, the new design perfectly reflects the brand's superior product credentials.

Eco-credentials:

In the vineyards sustainability is at the top of the agenda and TEVC has signed up to the regional certification 'Viticulture Durable' and 'HVE' (Haute Valeur Environnementale). Our policy on eco-responsibility also extends throughout the entire production process.

Oenothèque Collection and Hors Catégorie

We are proud to offer a select number of magnum cuvées from our outstanding Champagne Castelnuau vintages. With great skill, our winemakers preserve the continuity of our House style from one generation to the next, as part of our “Oenothèque” (wine library).

In addition, we offer our prestigious “Hors Catégorie” collection, meaning “beyond categorisation”. This collection honours the toughest mountain passes of the Tour de France, the most renowned and difficult bicycle race in the world, for which Castelnuau is the Official Champagne. Each release is a limited edition and the scarcity of these wines is fast making them collectors’ items.

CCF 2067 is named after Col de la Croix de Fer at 2,067 metres, and cuvée CM 1993 is named after the Col de la Madeleine at 1,993 metres, both are on the Tour de France route.

Champagne Nicolas Feuillatte - Chouilly

Located in the village of Chouilly, a Grand Cru village of the Côte des Blancs Champagne region, Nicolas Feuillatte is the youngest of all the major Champagne houses, and a global sensation- No.1 selling Champagne in France, No. 4 in the USA, and No.3 in the world.

Here in the UK, our team sells Nicolas Feuillatte cuvées which are exclusively for the UK on-trade, and premium specialist retail: Réserve Exclusive Brut NV and Nicolas Feuillatte Réserve Exclusive Rosé NV.

The rise of the brand's renown is thanks to the winery's exceptional grape supply and the talents of Chef de Caves, Guillaume Roffiaen, whose skills have been acknowledged by his inclusion in the 'Drinks Business 100 Master Winemakers' list.

5,000 growers contribute grapes to the Nicolas Feuillatte portfolio, which has a high percentage of reserve wines and is crafted from a carefully honed selection of crus. The site in Chouilly is also home to a fantastic visitor centre for viewing production, cellars and range tastings

Eco-Credentials:

Nicolas Feuillatte was the first Champagne producer to have been accredited with ISO certification. ISO 22002 guarantees production quality at the highest level using sustainable, environmentally friendly methods.

FRENCH SPARKLING WINE

Patriarche Père et Fils

Duc de Valmer

Our 'entry-level' French sparkling wine, Duc De Valmer, is pale-gold with fine, persistent foam. Delicate fruit, well balanced with a good finish.

Louis Perdrier

Pierre-Louis Perdrier was born in Beaune in 1880, where his father Louis François Perdrier had established his wine business in 1878. In 1954, he joined forces with his cousin André Boisseaux, head of Patriarche Père et Fils, to develop a range of high-end sparkling wines for hotels and restaurants, under the eponymous brand name Louis Perdrier.

Crémant de Bourgogne

Patriarche Père et Fils are the second largest producer of sparkling wine in France and are proof that quantity and quality are not always mutually exclusive. In 2019 their Patriarche Père et Fils Crémant de Bourgogne Brut NV was listed in the Top 5 of the World's Best Sparkling Wines by the Effervescents du Monde wine competition.

Léonce Bocquet

An emblematic figure in 19th century in Bourgogne, Léonce Bocquet greatly contributed to the renown of Burgundy wines throughout the world. As a supplier to Europe's greatest courts he made himself known for the fine and high-quality wines that he promoted with charisma and passion. In our portfolio are Patriarche's namesake Brut and Rosé crémants and the same cuvées under the Léonce Bocquet label, named after this bon viveur.

Given their scale it is no surprise that Patriarche make large quantities of entry level French sparkling wine mainly private or exclusive label business for off trade distribution around the world. We have access to this in lightweight glass and different closures. Please speak to your sales manager for more information.

Patriarche Père et Fils

Our mothership until we were bought by Champagne Castelnau in 2013, Patriarche holds a dear place in our hearts having worked with them for forty years and indeed being the first wines we ever imported as a company. Their Vins de France range continues to be a benchmark for reliably good house wines and the appellation's strength is in the freedom it gives the Patriarche winemakers to source from around France to create the best blends at affordable prices. These regional blends, which can differ from year to year, mean that consistent quality can be achieved across vintages.

Sustainability program

Historically, as a House of Burgundy, environmental concerns have always been embedded in the Patriarche DNA. Officially though, and for many years now, they have invested in winemaking processes of the highest standard and are IFS certified and BRC grade A+. In the background Patriarche have also been working with their long-term supplier partners as part of their environmental commitments and together they achieved Terra Vitis certification across all Patriarche varietals from the 2021 vintage. Terra Vitis is an environmental certification and is found in all vine-growing regions of France.

Organic

Building on the company's eco-credentials and already under increasing demand Patriarche's most recent addition to their portfolio are a pair of organic Vins de France: Sauvignon Blanc and Cabernet Sauvignon.

Héritage

The Héritage range, which means legacy in French, is a range of house wines dedicated to the founder of the Patriarche institution: Jean-Baptiste Patriarche.

Patriarche Père et Fils

Patriarche Père et Fils was founded in 1780 by Jean-Baptiste Patriarche making it exactly 200 years older than our company, having recently celebrated its 240th anniversary. Over the years it has grown dramatically from a small, traditional “Burgundy House” to one of the largest négociants-éleveurs in Burgundy, exporting to over 85 different markets around the world.

The scope of the company is large: it starts with the supervision of the plots and selecting of the grapes and continues by vinifying and maturing the wines. It is during the ageing process in the cellars that the wines develop their full potential, substance and structure. Patriarche is home to the most extensive cellars not just in Burgundy but in all of Europe, with “caves” that extend for five kilometres under the streets of Beaune where they receive over 45,000 visitors per year.

Graves & Côtes de Blaye

This second generation family business is in the hands of brothers Arnaud & Denis Lesgourgues. They combine tradition and innovation to create a stylish range including Château Haut Selve and Château Le Bonnat in the Graves and Château Loumelat from the heart of the Côtes de Blaye.

Environmental Initiatives

Having considered the possibility of certifying their estates as organic they have since achieved HVE level 3 (a French government initiative linked to the INAO), the highest standard which has been featured on the labels since the 2018 vintage. Maison Leda are also members of Terra Vitis.

Château Malescasse

Haut-Médoc

Built in 1824 this historic Château sits in a direct line with Margaux to the south and Saint-Julien to the north. The second wine of this domaine, Le Moulin Rose, pays homage to the iconic Malescasse windmill, which was renovated in 2018. The blend comes from plots close to the windmill, and its balance and elegance give it a distinctively Médoc style that is immediately accessible. Château Malescasse was upgraded from Cru Bourgeois to Cru Bourgeois Exceptionnel for the 2018 vintage onwards.

Château Grand Moulin Macquin

Montagne Saint-Émilion

Château Grand Moulin Macquin has been owned by the Rambeaud family since 2010. It's a small, 15 hectare estate found in the village of St George, 3km from Saint-Émilion. They make ripe and juicy, fruit-forward wines.

Château Grand Moulin Macquin, Montagne Saint-Émilion	2019	6/75cl	£78.66
--	------	--------	--------

Château Batailley

Château Batailley is one of the oldest residences in the town of Pauillac, vines have been planted on this land since the 17th century, and the wine has been a 5th Grand Cru Classé since 1855.

With a beautiful dark ruby colour, its nose reveals an elegant, rich and intense bouquet with aromas of black and red fruits. On the palate, it is well structured with pronounced notes of blackcurrant and spices. It also offers a long finish. It ages extremely well and can be kept for many years before being tasted.

Domaines Vincent Moreau

Situated in the small village of Ste-Cécile-les-Vignes in the heart of Côtes du Rhône territory Domaines Vincent Moreau is based at the historic Château de Ruth which has harvested vines here for over 330 years. Vincent Moreau himself makes wines under two labels: Château du Ruth and under his own name Domaine Vincent Moreau. Both labels produce a wine from the Côtes du Rhône Villages and Côtes du Rhône appellations. The Domaine is one of the oldest in the Rhône valley, its name first appearing in scripts dating back to 1561. Since 2020 they have been certified HVE3 the highest standard of the strict French environmental program 'Haute Valeur Environnementale'.

Domaine Mucyn - *Certified Organic*

A total career and lifestyle change for the Mucyn family 20 years ago started them on their winemaking journey along the banks of the River Rhône. They own a mosaic of 14ha of vineyards dotted across Crozes-Hermitage, Saint-Joseph and Cornas. They poetically describe their vineyards as an archipelago of little islands scattered over 25 km between Ozon and Pont de l'Isère. They fell in love with an 18th century former boat lodge situated 300m from the Rhône river which was built around 1750 and today is home to Domaine Mucyn. In 2019 the family started the transition to organic winemaking and Domaine Mucyn was confirmed to be certified organic in 2022.

Château Barbebelle

Organically farmed & certified 'Agriculture raisonnée'

Land cultivated by Romans, a typical château from the 16th century, 45 hectares of vines in a 300 hectare nature reserve sit 16km north of Aix-en-Provence and is home to Château Barbebelle, one of the oldest wineries in Aix-en-Provence.

It is the stronghold of the Herbeau family since 1940 and is now run by Madeleine, part of the fourth generation who joined her father after business school to help write the future of the family business. Madeleine's husband, Valentin, also manages production from vineyard to winery making it truly a family affair. Their ambition is to create so much more than just a winery: an experience for the epicurious, for connoisseurs and music lovers who can stay in one of their exclusive gîtes and enjoy concerts in the courtyard.

At the château they produce three ranges. Barbebelle Rosé Fleuri features a highly unique artistic and floral interpretation of the winery's name "a beautiful beard". This wonderful wine has achieved great acclaim and we were delighted to celebrate the success of Château Barbebelle when Rosé Fleuri was named 'Best Rosé of the Year 2020' by Decanter Magazine. Cuvée Madeline white, rosé and red express the elegance and freshness that are typical of the appellation Coteaux d'Aix-en-Provence. And then there's Cuvée Héritage the flagship wine in a beautiful bottle made from the finest grapes from the vineyards and also available in magnum.

Agriculture raisonnée

As a family so passionate about nature they are dedicated to preserving the land with the utmost respect for the environment. Château Barbebelle is certified HVE and Agriculture Raisonnée, a French certification system whose primary objective is to control the quantities of inputs, and in particular the chemical substances used (pesticides, fertilizers) in agricultural production processes in order to limit their impact on the environment.

Domaines Gilles Cantons

Winemaking has been in the Cantons family for generations. Domaines Gilles Cantons owns 40ha of vineyards spread across the heart of the Languedoc. Gilles himself owns Château Fontanche and buys grapes in to make his Picpoul de Pinet Les Roches Saintes which are both new to our list this year.

www.domainescantons.fr

Vignerons des Schistes

Bordered to the south by the Étang de Thau, famous for oysters and to the north by the limestone reliefs of the Hérault gorges, the soils of the vineyards here are clay sandstone slopes and red clay. Gilles Cantons oversees the winemaking from vine to glass from daily maturity checks, nighttime harvesting followed by meticulous vinification.

Weingut Malat - Kremstal

Certified Sustainable & Organically Farmed

The Malat wine estate – Weingut Malat- is one of the most prestigious wineries in Austria, a traditional, family owned wine estate established in 1722 now run by Michael Malat. The passion for quality, the drive for perfection, the love of artisanry and the respect for tradition are what characterise his wines. Based in Kremstal, in NE Austria, Malat owns 50ha of vines averaging 25 years and which they chose not to irrigate to ensure low production and the highest quality grapes.

Eco-philosophy

Michael describes his vineyards as his greatest treasure: “they are the foundations of my wines and I want to treat them in the best possible way so they are in good condition for the next generation.” It is no surprise then that Malat has become certified sustainable and is working towards organic certification which should be granted for wines from this year’s vintage and available in 2025.

People from around the world visit Malat not just to taste their wines but to stay at their vineyard hotel, which opened in 2012 and lies at the foot of the rising Göttweiger Berg mountain amongst the vineyards with an imposing view of the Stift Göttweig monastery.

www.malat.at

📷 @malat.weingut.hotel

Crazy Creatures

The brainchild of Michael Malat, Crazy Creatures’ first vintage was 2013. The labels are an artist’s interpretation of Michael’s vision to attract and intrigue wine drinkers to try his wines. Four abstract creatures adorn the bottles; the wines are all 100% Grüner Veltliner. The grapes for the wines are grown in the small Austrian village of Palt, in the wine-growing region of Kremstal. A favourite among sommeliers and wine enthusiasts alike Grüner Veltliner is the most important grape of Austria and is known for its spicy, herbal and fruity aromas and a crisp, fresh acidity.

Bodegas Santalba - Rioja

Sustainably and organically farmed

Founded 25 years ago but built on more than 50 years of winemaking heritage. Bodegas Santalba's father and son winemakers, Santiago and Roberto, have recently been joined in the business by Roberto's sister Laura, and the family works harmoniously on traditional and maverick projects respectively.

The most recent of Roberto's small batch experiments include carbonic maceration and a sparkling DOC Rioja, all this whilst also managing the conception and creation of the region's first and only urban winery.

The fight against climate change:

Of the vineyards they own, all of Santalba's are certified organic and the growers they work with follow the winery's strict environmentally sensitive practices, but it is not always financially viable for smaller growers to jump through the official certification hoops which is why the wines are not labelled as certified organic.

With the severity and frequency of tempestuous weather increasing Santalba is totally immersed in the reality of climate change and how it is affecting vine growing and winemaking in Rioja. They have experienced climate damage first hand and so have established forward thinking viticultural processes to ensure a long and successful future for the winery. These include and are not limited to managing a biodiverse cover crop, planting vineyards at high altitudes where it is cooler, helping to re-establish abandoned vines, late pruning to avoid spring frost and tight control of surface roots to allow the deep ones to grow and reach water.

www.santalba.com

Laura Ijalba Pérez - Santalba

Bodegas Santalba - Rioja

Sustainably and organically farmed

Que Vida is the exciting new range from Santalba. Organically farmed natural wines, made with semi carbonic fermentation. Right on-trend, Que Vida white viura and Que Vida red tempranillo wines are excellent, and their artistic labels are fun, eccentric and very memorable.

To satisfy thirst and demand for Rioja we introduced a price fighting Tinto Joven to the Ermita de San Felices range. A playful blend of 95% Tempranillo and 5% Viura, this is an easy drinking, fruity and fresh red that compliments the reliable and well-regarded classic Rioja wines under the same label.

Abadía de Acón - Ribera Del Duero

Sustainably and organically farmed

Abadía de Acón is a family-run winery located in the heart of the D.O. Ribera del Duero, in Castrillo de la Vega, Burgos. The original cellar, hewn out of rocky clay, is one of the deepest and largest in Castrillo de la Vega and was constructed by Norberto Carrasco. Today his grandson Jose Antonio Carrasco is in charge of the wines from this space-age looking bodega that emerges from the hillside, half of it buried underground and half of it visible. His wines are robust, mouth-wateringly intense and made from Tempranillo (Tinta Fino) with a very small amount of Cabernet Sauvignon going into the Reserva.

Eco-conscious:

Acón's 33 hectares of vineyards are nourished exclusively with organic fertilisers (manure from local sheep to avoid foreign diseases). Although they are not certified organic they refrain from using herbicides or any other aggressive treatments in the vineyards.

Cavas Marevia – *Sustainably and organically farmed* - NEW

Cavas Marevia was established in 2007 with a firm commitment to quality, using the latest technologies to make cavas, always with maximum respect for the grape.

In recent years, their focus has been on greater energy efficiency thanks to the adaptation of all processes to become a 100% ecological winery and their products have won awards internationally.

Organic Cava Brut Nature is aged for 12 months. With fine, persistent elegant bubbles and a creamy texture, broad and long on the palate.

Cava Vega Medián Rosé Brut is aged for 10 months. Hints of violet and rose combine with ripe red fruits. Smooth, very creamy, fresh and elegant.

Roqueta Origen

The ancestry of Roqueta Origen dates back to the 12th century and nowadays they are a powerhouse in the Spanish winemaking community. They are family owned and run a number of vineyards and wineries. From their portfolio we import Las Corazas and La Picossa from Castilla and Terra Alta respectively.

Bodegas Crin Roja is the home of Las Corazas, a young winery in La Mancha, a region that contains the most extensive surface area of vineyards on the planet. The vines are planted on mainly chalky based and stony ground, with little soil and the climate is marked by extreme temperatures.

La Picossa, named after Pablo Picasso, is the local mountain situated between the Ebro River and the Terra Alta region. It is 499 meters high and this mountain separates the county of Terra Alta from the region of Terres de l’Ebre.

Quinta de Cottas - Douro

Certified Sustainable

In 2006, Isabel and Pedro Carmo were drawn to a vineyard in Alijó, the sub-region of Cima Corgo. Here they converted a rundown house in this unique region and started to make their own wines. From the beginning, they decided that the approach at Quinta de Cottas would be to preserve the genetic heritage of the region. As such their vineyards are planted with the traditional Douro grape varieties which means they have a fruit bowl of varietals to choose from: Touriga Nacional, Touriga Franca, Tinto Cão, Tinta Roriz and Sousão reds and Viosinho, Gouveio, Arinto and Rabigato in white.

Their position on the slopes of the beautiful Douro valley enjoys excellent sun exposure and schist soils, a combination that ensures grapes of unique character and profile. They now produce internationally acclaimed wines and port from their newly built boutique winery that are true to the soils and standards synonymous with wines from the Douro.

Viticulture and sustainability

Quinta de Cottas is committed to the environmental responsibility of their farming based on the minimum disturbance of soils to preserve the biodiversity of the Douro. They employ minimal use of herbicides, insecticides and pesticides, treating the land with the respect it deserves. They practice sustainable viticulture and are certified in order to improve the environment for future generations. Their environmental impact policy extends equally to dry goods, providing a full circle commitment. Using recycled materials in their packaging and reducing the total weight of the bottle decreases the amount of CO2 produced and reduces energy consumption during transport. Lighter glass means less impact on the land, water and people.

Casa Vinicola Caldirola

Established 1897 and grown from humble beginnings, Caldirola is based in Missaglia to the north of Milan. BRC, ISO22000 and IFS certified, Caldirola is a major supplier to Italian supermarkets of brand and private labels, producing in the region of 70 million bottles per year. In 2023, Caldirola was acquired by Bologna-based Prosit Group, a large wine business committed to offering customers a complete and synergetic portfolio of brands and promotion of the culture of quality Italian wine. Prosit Group's mission is to build a healthy future for their wineries, contributing to Italian wine's success and reputation worldwide and developing strong brands that attract current and future wine lovers.

The scale of the operation here may not be as romantic as some wine producers might have you believe but it does give us the opportunity to work on the development of exclusive labels for our customers.

To this avail we have collaborated with Caldirola on successful new product development, including the La Musa range, to which we have recently added three new wines. All are trademarks that we own, with labels designed by renowned wine label designers Amphora and wine blends selected by our customers to meet their price point and margin requirements.

Fattoria Viticcio - Tuscany

Certified Organic (since 2017 vintage)

Viticcio has been making wine on their estate since 1964 among the rolling green hills of Tuscan wine country in Greve in Chianti, the very heart of Chianti Classico. 100% of their wine production has been farmed organically since 2013 and certified since 2017. They also farm 8ha of their vines under biodynamic agricultural methods.

The winery's vinicultural production began with the desire to capture and embody the potential of Chianti Classico, and it wasn't long before Viticcio became renowned for their true and high quality expression of the Tuscan terroir. Since then, the winery has grown to encompass 120 hectares of estate-owned land among the hills of Chianti Classico, Maremma, and Bolgheri, and it now produces wines from all three of these prestigious regions.

Today, the Biba family make wines that express the most authentic link between nature and man. They are driven by passion and enthusiasm to make their wines classic and elegant, yet with a fresh outlook on the terroir.

Scrimaglio - Piedmont

Sustainably Farmed

The Scrimaglio winery in Nizza Monferrato, Piedmont, was established in 1920. The Scrimaglio family's roots in Piedmont date back to the 17th Century. Their historical importance in the region is so great that an entire area of Monferrato is still known as Regione Scrimaglio.

Renowned for the quality of their Barbera d'Asti, and acknowledged as leaders of the grape's rebirth at the turn of the century, Scrimaglio are credited for the work that led to the classification of the region's sub-appellation Nizza DOCG which was officially recognised in 2014.

The winery was owned and run by the Scrimaglio family until 2017, when the brand was acquired by Terre da Vino, one of Piedmont's most important regional cooperatives. The winemaking, under Terre da Vino's chief winemaker Bruno Cordero, unequivocally brought the wines back to their former glory and saw them released into the UK for the first time in stylishly elegant packaging.

Sustainability practices:

The well exposed microclimates of the vineyards allow the Scrimaglio winemakers to practice low impact farming and work in harmony with nature to produce unquestionably high-quality wines.

Ermacora - Friuli Colli Orientali

Certified Sustainable

Recently celebrating their 100th vintage the Ermacora family has been crafting wines in Ippis and Montsclapade since 1922. The landscape here is characterised by stunning terraced hills and a patchwork of wooded areas and vineyards that rise from 100 to 300 meters. This varied jigsaw of land creates a multitude of microclimates close to the boarder with Slovenia where the weather is tempered by the breezes that blow from the Adriatic Sea nearby. To ensure continuity of their oenological vision the winery is run by 3rd and 4th generation winemakers and their philosophy remains as their ancestors intended: quality of produce before profit.

Guardianship of the land:

At Ermacora they follow the integrated pesticide protocol 'SQNPI' which is an EU and nationally recognised certificate for sustainable agriculture. As a result they have succeeded in reducing treatments on their land by over 20%. In 2019 they reached a zero-carbon electricity balance meaning they produce more electricity than they use and by replacing their tractor fleet they have lower fuel consumption, reduced emissions and have minimised soil compaction of the land. With this care and dedication to guardianship of their land it is no surprise that they have been listed 'among the most advanced wineries of the region' by the Slow Food wine guide.

Azienda Agricola Buglioni - NEW

Organic from 2019 vintage

Buglioni is a Veronese domain immersed in the vineyards of the Valpolicella Classica and born from the courage and foresight of Alfredo and Mariano Buglioni.

When Alfredo Buglioni bought the old farmhouse of his dreams in 1993 in the heart of Valpolicella Classico, he hadn't considered the prospect of becoming a winemaker. However, the property came with a vineyard planted to local red grape varieties and the call of the vines was too much to resist. Initially, each vintage was a joyous event shared with friends and collaborators, but soon the Buglioni's vision and passion allowed them to dream that they could become "real" winemakers.

Oenologist Diego Bertoni joined in 2001 and since then, Buglioni has released many vintages, some of which have scored 90-plus points in Wine Spectator tastings. The estate has grown to 54 hectares, and farming has moved towards organics.

Cycles Gladiator - California - Certified Organic

Organically farmed

Since its inception in 2005, Cycles Gladiator has celebrated and championed women's empowerment. The brand draws its name from the 19th century French bicycle manufacturer, the Gladiator Company, and honours their powerful original artwork on the wines' label. The red-haired maiden soaring through the sky on her bicycle symbolised the new liberation of women during the suffrage movement. Bicycles, as Susan B. Anthony praised, literally emancipated women from domesticity, allowing them to travel independently outside their households to work and vote.

Over a century later, Cycles Gladiator's striking label still resonates with wine lovers. Adam LaZarre, acclaimed and multiple award-winning winemaker, is metaphorically in the saddle, and has been since the beginning. Having lived in Paso Robles for more than twenty years, Adam is extraordinarily connected to his community and the winegrowers in the area. Cycles Gladiator benefits from his longstanding viticultural relationships throughout California which provide access to standout fruit every year.

Hahn Family Wines - California

SIP Certified

In 1980, founders Nicky and Gaby Hahn released their first wine from the Santa Lucia Highlands. A mere eight years later, Nicky led the charge to establish SLH as an American Viticultural Area, a dream he saw realized in 1991. Sadly, Nicky passed away a few ago but his overwhelming contribution to the landscape of the California winelands was celebrated shortly beforehand with the ultimate accolade from Wine Enthusiast: 2017 American Wine Pioneer.

Today, Hahn Family Wines is run by Nicky and Gaby's son Philip. They own 650 acres of estate vineyards in the Santa Lucia Highlands and SLH enjoys worldwide acclaim for the Pinot Noir and Chardonnay made there. They own a further 450 acres in Arroyo Seco, on the Salinas Valley floor at the base of the Santa Lucia mountains.

Hahn's commitment to sustainability

As a family-owned and operated winery, sustainable winegrowing is not only something they do at Hahn Family Wines, it is integral to their business. Hahn were one of the first wineries in the Santa Lucia Highlands and Arroyo Seco AVAs to have all estate vineyards (Lone Oak, Doctor's, Smith, Hook, Ste. Nicolaus and Ste. Philippe) certified under the rigorous Sustainability in Practice, or SIP certification program. This strict third-party program is the gold standard for sustainable vineyard certification in the USA. It challenges growers and wine producers to review, implement and amend practices impacting the earth, its people and future generations while offering buyers and consumers a trustworthy seal that guarantees conscientious quality.

SIP Certification program: Caring for People, Planet and Prosperity

Being SIP Certified shows Hahn's dedication to the 3 P's of Sustainability – People, Planet, Prosperity. They are committed to the '3 P' approach and measure the following set of practices in their environmental efforts: biological diversity, soil conservation, vineyard management, safe pest management, energy conservation, water quality and conservation, waste and pollution control, social equity and economic viability.

Boneshaker

Named after the velocipede bicycle this wine is far from an uncomfortable ride- it is big, bold, intense and sustainably farmed in Lodi.

Zinfandel (Lodi) 2020 12/75cl £242.25

Smith & Hook

The Cabernet Sauvignon from the ranches of Smith and Hook continue to impress. The packaging reflects this unique ranch-turned vineyard and emphasises quality.

Cabernet Sauvignon (Central Coast) 2019/2020 12/75cl £269.05
(2020) Wine Merchant Top 100 2023: Highly Commended, IWC 2022: Bronze, IWSC 2022: Silver (90 points)

Lucienne

Located in Santa Lucia Highlands Lucienne is a micro-winery within the Hahn premises and these are vineyard select bottlings under the Lucienne label. There is also a Chardonnay in the range.

Smith Vineyard Pinot Noir (Santa Lucia Highlands) 2018/2019 12/75cl £275.50
(2019) IWC 2022: Bronze, IWSC 2022: Silver (91 points)

Boneshaker Zinfandel, Lodi, 2018

“Rich nose, slightly smoky with a herbal hint. Full bodied with soft supple structure, ripe and juicy flavours of cassis, smoky black cherry with sweet spices on the palate.”

Highly Recommended, Decanter Magazine, February 2021

Gary Farrell Winery

Certified Sustainable

A Russian River pioneer, winemaker Gary Farrell released his first 55 cases of Pinot Noir in 1985 to widespread critical acclaim, and for over 39 years, the winery has crafted exquisite small-lot artisan wines of balance and elegance from some of the finest vineyards in the region. Winemaker Theresa Heredia joined in 2012 and was nominated Winemaker of the Year by Wine Enthusiast in 2020. Gary Farrell Winery has been certified as sustainable (CCSW) since 2019, and in the last 10 years, respected wine publications have awarded 650 ‘90+ scores’ across the winery portfolio.

Wicks Estate - Adelaide Hills

Sustainably Farmed

Wicks Estate is a family-owned and operated wine company producing hand crafted wines from their vineyard and state-of-the-art winery at Woodside. As a vertically integrated company, it controls the wine making process from vineyard to winery and farms following sustainable practices. The Adelaide Hills wine region is made up of approximately 70 kilometres of vineyards and is well known for its diverse topography, high altitude and cool climate.

The Wicks family has a long history in agriculture that started with an Orchard and Nursery at Highbury. In late 1999, they purchased the 54 hectare property at Woodside for its suitability for premium wine grape production. The vineyard was designed around the gentle undulating slopes studded with a number of ancient red gums and the Inverbrackie Creek that winds its course through the length of the property.

The Winemaker

The Wicks family appointed Adam Carnaby as Chief Winemaker. Adam previously gained winemaking experience across Australia, beginning in the Yarra Valley, where he worked with pinot noir expert Tom Carson, then in Margaret River, with Xanadu Wines. Adam has gained winemaking experience across Australia, beginning in the Yarra Valley, where he worked with pinot noir expert Tom Carson, then in Margaret River, with Xanadu Wines. Most recently, Adam was chief winemaker at Seppelt Wines, in Great Western and his addition to the team will further build on Wicks Estate's reputation as one of Adelaide Hill's finest wine producers.

Logan - Orange - NSW

Organically & Sustainably Farmed

Logan is a family owned and operated winery in Orange & Mudgee in the Central Ranges of NSW and is run by winemaker Peter Logan. Orange is a cold climate region and Logan's vineyards here range from 850 to 1050 metres above sea level on rich volcanic soils. Logan's Mudgee vineyards are at a slightly lower 600 metres altitude where the temperature is somewhat milder. The climate of these neighbouring regions makes the area ideal for producing wines that reflect Peter's winemaking philosophy- "to combine soft, rich Australian fruit character with an elegance, structure and savouriness more common in European wines".

Logan produces four ranges bottled under bold, contemporary labels that articulate the unique characteristics of the wines. Most recently released are his hipster Clementine wines.

Clementine Pinot Gris is orange by name and orange by nature. Grown in the cold-climate of Orange, NSW, the orange colour is a result of fermenting pinot gris on its own skins, providing a stunning hue, delicious texture and crunchy tang.

Clementine de la Mer is a unique white wine blend of Chardonnay, Sauvignon Blanc, Riesling, Viognier and Gewurztraminer- all skin fermented by wild yeasts. No finings are used in this wine and it has been bottled unfiltered which gives it a slightly cloudy colour.

Clementine Blushing Minnie is a juicy red wine, a blend of whole bunch fermented Pinot Noir and Pinot Gris fermented on its skins with a splash of Meunier.

Tiki Wine & Vineyards - Waipara & North Canterbury

Certified Sustainable

New Zealand summers have plenty of heat and sunshine, but it's at nightfall when the magic really happens. When the sun dips below the horizon and takes its warm kiss away from the islands, the temperatures quickly drop, and we are reminded of NZ's secluded geographical location in the Southern Ocean. It is this unique geographic positioning that gives NZ one of the longest grape growing seasons on earth which is so special to the creation of Tiki wines. Cold night-time temperatures help to capture the elegant acidity and the unmistakable zesty flavours and fragrances that are the hallmarks of Tiki's range.

The Tiki whānau (Family) are an indigenous New Zealand wine producer committed to sustainable winegrowing. Founder Royce McKean's family has been living and farming in New Zealand (Aotearoa) for hundreds of years. They care for their vines under the guiding Māori principles of Kaitiakitanga: guardianship, protection and preservation of the earth.

Tiki take their Māori heritage very seriously and are one of the founding members of TUKU, the world's first Māori winemakers collective. Together, TUKU cover all of New Zealand's main winemaking regions and, through the collective, their aim is to strengthen indigenous winemaking as a whole.

Award winning winemaker, Matt Connell, joined the Tiki winery in 2020 and has overseen the transition to Tiki's Single Vineyard wines.

Farming sustainably:

Tiki is certified sustainable and cares for their land sustainably in a number of ways. They use lambs to graze the vineyards in the winter, and over the years they have used various methods to enrich the vineyard soils, including liquid seaweed, molasses and beneficial bacteria and fungi for ground drenching. They have a strong focus on re-using and maximise recycling opportunities wherever possible, as a company they strive to ensure all of their actions have the long term interest of the land at heart.

Maui

Maui takes its name from the Maori demigod who as legend tells us captured the sun and pulled New Zealand out of the sea. Maui was a great adventurer with an inquisitive nature and a fearless spirit. These attributes are at the very heart of New Zealander's and the Maui wines. These wines are made in a very approachable, easy drinking style and are vibrant and refreshing.

Maui Sauvignon Blanc (Waipara) 2022/2023 6/ 75cl £67.04
 (2023) IWC 2024: Bronze, DWWA 2024: Bronze, Wine Orbit (NZ) 2024: 16.5/20

Tiki Single Vineyard

Tiki's Single Vineyard range is made with the very best parcels of hand-picked fruit selected from only the premium blocks on Tiki's North Canterbury vineyard. Winemaker Matt Connell aims for purity and freshness and a food friendly style; he makes use of yeasts to enhance the flavours of the Single Vineyard range giving them a more generous weight and taste profile.

Tiki Single Vineyard Sauvignon Blanc (North Canterbury) 2023 6/ 75cl £74.07

Tiki Koro

Koro is Maori for grandfather and this wine is named in honour of Royce McKean's great-great-great-grandfather, Chief Tiki Tere Mihi. Koro Pinot Noir is Tiki's most exclusive wine that has been individually hand-crafted from grapes harvested at optimum ripeness and made in very limited quantities.

Tiki Koro Pinot Noir (Central Otago) 2019 6/ 75cl POA

Royce & Sue McKean

Certified Vegan, Certified Sustainable

Founded by Chilean agricultural impresario Juan Sutil, Viña Sutil is the result of his family's love of agriculture and rural life since they arrived in Chile from Spain in 1850. Guided by his enterprising spirit and driven by the desire to contribute to the development of Chile's wine industry, in 1995 Juan and his nephew Diego Garcia de la Huerta Sutil established Viña Sutil in the Colchagua Valley convinced of the excellence of the land and its climate. This dream expanded in its early decades to the country's top denominations of origin, from Limari in the north to the coastal Leyda Valley, from the renowned Maipo Valley in central Chile to the southern valleys of Maule, Curia, and Cauquenes.

Diego was passionate about two things: wine and aviation and Sutil's latest release- Mixtio- is a tribute to the winery's first winemaker who passed away before he could see the fruit of his labour materialise into the success that it is today. Mixtio is a bold blend of Petit Verdot, Cabernet Franc, and Syrah from vineyards in Cauquenes, Colchagua and Limari. It has spent 24 months in French oak barrels, 5 years in the bottle and is packed in a beautiful 3 bottle wooden gift box.

The prestigious Acrux blend became a key milestone in Viña Sutil's winemaking journey. Accolades and critics' scores consistently increased with every vintage release. Each year is bottled in small quantities and characterised by a unique Chilean Bordeaux blend of red grapes from Colchagua Valley and varied ageing time in barrel. Acrux 2017 was heavily featured in Drinks Business Magazine (Sept 2020), and was awarded 94 points by Patrick Schmitt MW.

Valle de la Puerta - Famatina Valley

Sustainably Farmed

Valle de la Puerta is located approximately 754 miles northwest of Buenos Aires by road. The property sits between the Famatina and Velasco mountain ranges, which branch off the impressive Andes. This unique valley offers a magnificent visual backdrop and provides well-drained topsoil.

In 1994, founder Julian Clusellas opened a newspaper and found what would become his life passion. Three months later his wife stood with him twelve hundred kilometers away from home, staring at 4000 hectares of barren land which he was to transform into a vast complex of vineyards, olive groves, walnut trees, an olive oil factory... and of course, a winery!

Today Valle de la Puerta produces 2.2 million litres of wine each year – a serious producer known for its scale and ability to produce stunning, award-winning wines thanks to head winemaker, Javier Collovati. They have started on the road to sustainability and hope to be certified in 1-2 years.

Las Olas wines are attractive and fruit-driven, a style that is easy drinking and offers excellent value for money. La Puerta Alta grapes are hand-picked from drip irrigated vines which are canopy-managed for optimum flavour ripeness and the best reds are carefully selected for the Alta range and kept in separate tanks until both primary and secondary fermentation is complete. Then they are blended with reserva wines that have been aged in French and American oak barrels for 6 months.

Siete Fincas - Mendoza

Sustainably Farmed

Edgardo Stallocca founded Siete Fincas in 2000 to follow in the footsteps of his grandfather, Juan, who started the family's passion for winemaking in Mendoza in 1904. Along with his winemaker, Sergio Montiel, Edgardo is committed to continuing his family's heritage and legacy of creating premium, handcrafted wines.

Siete Fincas honours Edgardo's childhood which he spent in the family bodega and vineyards and derives its name from the "siete fincas" or "seven lands" that Juan Stallocca once owned. Producing limited quantities of quality wines, the grapes for the Siete Fincas wines are chosen from selected vineyards in distinct regions of Argentina that have optimal conditions for the grape growing of each particular varietal.

Most of the vines are located in Luján de Cuyo, Maipú and Uco Valley which are high-elevation regions characterised by ideal weather conditions and moderate drainage for the development of expressive wines.

Oak Valley - Elgin

Certified Sustainable (Integrated Production of Wine (IPW) certified)

This historic estate in South Africa's cool climate Elgin Valley is more than just a winery. Founded in 1898 the farm is still family run and takes its name from the founders' love of oak trees, 4,000 of which are still planted on the estate today. Among the vines are apple and pear orchards, greenhouses packed with fresh cut flowers, cattle, free range acorn fed pigs and 30km of mountain biking trails. Forty-eight hectares of vineyards are planted predominately with Pinot Noir and Chardonnay, Cabernet Sauvignon, Merlot and Sauvignon Blanc.

Oak Valley is fast becoming one of South Africa's most sought after wine producers. They are highly acclaimed for their superior Chardonnay and Pinot Noir and both have been classified by South Africa's go to online wine review publication Top Wine SA in their Top 10 SA Chardonnay and Top 10 SA Pinot Noir lists as well as being ranked in the top 20 of their Top White Wine Cellars of South Africa.

Oak Valley's moody labels aim to visually express the history and climate of the Elgin region with a nod to their tag line: a place of discovery. They depict the cool climate that makes it stand out from other South African wine growing areas with grey clouds a theme throughout. At 350 meters above sea level and around 20 km from the sea itself the vineyards have a cool coastal influence that mean long cool ripening seasons that give the wines their hallmark acidity and amazing ageing potential.
